STR

 **aldes**

FR Prenez toutes les précautions nécessaires pour éviter les blessures. Tout chantier doit être réalisé selon les réglementations locales et nationales de sécurité et de santé.

EN Take all necessary precautions to avoid personal injury. All work must be undertaken according to all local and national health and safety regulations.

DE Treffen Sie alle erforderlichen Vorkehrungen, um Verletzungen zu vermeiden. Montieren Sie grundsätzlich immer unter Berücksichtigung der Regeln für Sicherheit und Gesundheit. Auch anderweitige, nicht separat aufgeführte nationale Richtlinien müssen berücksichtigt werden.

NL Neem al de benodigde voorzorgsmaatregelen ter voorkoming van persoonlijk letsel. Al het werk moet worden uitgevoerd op basis van alle lokale en nationale gezondheids- en veiligheidsvoorschriften.

ES Tome todas las precauciones necesarias para evitar lesiones personales. Todos los trabajos deben realizarse de acuerdo con la normativa local y nacional en materia de salud y seguridad.

IT Prendere tutte le precauzioni necessarie per evitare lesioni personali. Rispettare le normative di sicurezza e salute. Controllare le pertinenti regolamentazioni nazionali.

- FR** Si la STR ne peut pas être placée entre deux crochets, placez le crampon tempête entre deux ardoises. Percez la bavette à l'endroit du rivet et le retourner.
- EN** If the STR cannot be placed between two hooks, place the storm spike between two slates. Pierce the flap at the place of the rivet and bend it.
- DE** Wenn der STR nicht zwischen zwei Haken platziert werden kann, platzieren Sie den Sturmspieß zwischen zwei Schieferplatten. Stechen Sie die Klappe an der Stelle der Niete ein und biegen Sie sie um.
- NL** Als de STR niet tussen twee haken kan worden geplaatst, plaats de stormpin dan tussen twee leien. Prik de flap door op de plaats van de klanknagel en buig hem.
- ES** Si el STR no puede colocarse entre dos ganchos, coloque la espiga de tormenta entre dos pizarras. Perfore la solapa en el lugar del remache y dóblela.
- IT** Se non è possibile collocare lo STR tra due ganci, posizionare il picco di tempesta tra due ardesie. Forare l'aletta al posto del rivetto e piegarla.
